

adtronics®

## LEADERS IN ELECTRONIC SIGN TECHNOLOGY

Adtronics is the name behind some of the most recognizable signs in the world. Utilizing state of the art technology and extensive manufacturing capabilities Adtronics displays are unsurpassed in quality, features, and design. From monochrome commercial displays to spectacular high definition color displays with real time video display capabilities, Adtronics LEDs feature unsurpassed brightness, low power consumption, wide viewing angles, and ease of maintenance.

**adtronics®**

**Adtronics** LED displays produce bright advertising messages at a fraction of the operating cost of other advertising forms.

Perfect for almost any application, Adtronics LED displays are available in a wide range of size and image resolutions to accommodate budgetary, advertising and location needs.

**Here are a few features:**

- A large graphics and animation library is included to make your sign look better than any other sign in town.
- Adtronics cabinetry is fabricated in many configurations, providing for quick easy installations.
- Adtronics offers pixels sizes ranging from 8mm to 25mm for exterior locations and from 6mm to 10mm for indoor applications.
- Adtronics displays use oval shaped 70 degree LEDs to provide wide angle readability while still providing exceptional direct-on brightness.
- All LED displays have front access hinged faces for quick, convenient service.
- Data connection can be wired or wireless Ethernet, 3G cellular, or fiber optic cable.
- Displays can be controlled over a network or from anywhere in the world using the internet.
- Silicone conformal coatings assure you of a long lasting display.
- Adtronics displays meet local safety and electrical codes and all components are UL listed.

**Adtronics** displays include our easy to use software that features;

- Built-in transitions to enliven messages
- Library of pre-made graphics and images
- Message Editor that allows you to add text on colored backgrounds, pictures and graphics
- Flexible File support allowing you to display JPG, GIF, AVI, BMP, and PPT (powerpoint) files
- Advanced message scheduling allowing you to play messages specific times on specific days up to 1 year in advance
- Time date and temperature Display
- Message Preview allowing you to review your message prior to sending them to display

**With thousands of signs located all over the world, Adtronics experience ensures your display will meet the highest levels of performance and dependability. Backed by our manufacturer's warranty you can trust that your display will draw attention to your business for years to come.**

**Adtronics** LED message center displays communicate with impact. They feature the brightest, longest-lasting LEDs in the industry. Exciting software options allow you to easily create dynamic attention-getting messages and our reliability insures you of an effective and virtually carefree marketing investment.

**Adtronics** LED displays are a cost-effective and proven way to advertise and promote your business. Even in direct sunlight, these displays draw attention and help your customers easily find your business.
